IMPORTANT ANNOUNCEMENT

April 2018

Eberhardt Schwab GmbH – Bringing together what belongs together!

Dear Sirs

We are pleased to announce that, with effect from **1st May 2018**, we will open a new chapter in our company history.

The competencies and experiences of Eberhardt GmbH and Schwab GmbH are brought together to form a new company under the name of

Eberhardt Schwab GmbH

Our aim is to combine the individual business activities of the two companies and provide our customers with a complete “all-inclusive package”.

Eberhardt GmbH can look back on more than 150 years of experience in the construction of lime shaft kilns with coke, oil and gas firing systems for the sugar and soda industries.

Schwab GmbH has firmly established itself on the market over the past 25 years thanks to its expertise in refractory lining solutions for lime kilns.

The newly-merged company **Eberhardt Schwab GmbH** will be a cornerstone of the M-Group, an internationally operating group of companies based in Lemgo.

This merger offers our customers a unique range of services around the lime kiln:

- Kiln operation and process technology
- Consulting and services
- Retrofit
- Refractory solutions
- Mechanical systems
- Planning and realization of complete lime kilns

No matter what kind of services our customers require, “selected” solutions or the “complete package”: With any modification, optimization or trouble shooting, we are always focused on the kiln as a whole. Thus, we are in a position to offer the best possible technical and economical solution, taking all factors into account. This is a unique approach that has not been available before. Take us at our word!

A key part of our success has always been the people behind the technology. Therefore, we are very pleased that the existing teams with all their expertise and experience, under the leadership of Managing Director Michael Hünerlage and Harald Schwab, will remain the first point of contact for our customers.

Any comments, questions and suggestions are very welcome.
